

Dear families,

23rd September

Award-winning scientist and BBC broadcaster **Dr Maggie Aderin-Pocock MBE** is here to answer all the questions curious kids will ever have about the Universe.

How long would it take me to fly to a star?
What would happen if I fell inside a black hole?
Would I get a phone signal in space?

From whether there are rainbows on other planets to what dinner tastes like on the International Space Station, her book is packed full of fabulous facts, mind-blowing insights and engaging explanations, and she is coming to The Octagon Theatre in Yeovil on the Saturday 22nd October to talk about her journeys and answer questions the children might have.

We are offering this as a trip to children in Year 5. As it is a Saturday we understand that this might not be convenient for everyone but we still wanted to offer this fantastic opportunity.

We are unable to offer transport to this event, but Mrs Ashbourne and I will meet children outside the theatre at 9.30. The event will finish at 11am, when children will need to be collected from the theatre. Tickets are £6.

If you would like to book a ticket please log into ParentMail to make the payment. We will take your payment as consent for your child to attend the event.

Yours Sincerely,

Hannah Lintern
Deputy Head and Year 5 Teacher

Headteacher: Laura Constanza
Deputy Headteacher: Hannah Lintern

Telephone: 01278 722527
