

CATCOTT PRIMARY SCHOOL

Manor Road, Catcott, Bridgwater, Somerset TA7 9HD

Friday 13th March 2026

Dear Families,

For our next DT Topic Day, we would like to invite parents from all year groups into school for an afternoon session rather than the morning. With your help, our focus will be on evaluating and testing the products the children have made during the day.

The children will use questionnaires and other methods to record your viewpoints, which will allow their products to have a real-world link.

Some of the exciting products that will be made include Super Salads in Years 1 and 2 (you'll get involved in some taste testing!), package design in Years 3 and 4, and a lifting bridge system in Years 5 and 6. Reception parents will have the opportunity to join in with their child's learning.

We welcome you into school for a 2:30pm start, and the session will finish at 3:15pm to allow plenty of time to get ready for home.

As usual, please click on the link below to let us know if you plan on attending.

Thank you very much for all your help and support with our art and topic days.

Many thanks
